

Bio

I am Lesli Corbin, a Unity & Land Priestess. In 2026, my mother bestowed upon me my tribal name of Desert Radiant Star.

My ancestors are Chickasaw (U.S. tribe currently located in Oklahoma) and Gaelic. Desert Rose, my 87-year-old mother, was raised on the Northern Cheyenne Reservation in Lame Deer, Montana, where traditions of earth-based veneration and ancestral reverence shaped the foundation of the family's spiritual path.

Rooted in this sacred relationship with land and lineage, I have evolved into an ecospiritual mentor, trauma-informed facilitator, writer, and guide devoted to helping others rediscover their innate belonging within nature. It is my intent to bridge ancestral wisdom with contemporary ecospiritual teachings.

I invite my students and clients to listen to the wisdom of land, air, water, and the living world and cultivate unity, remembrance, and embodied healing. Through safe spaces, my goal is to empower individuals to rediscover their authentic voice, restore energetic balance, and walk a path of numinous connection with Earth.

My own quantum journey has been circuitous but enlightening. I have always been sensitive and compassionate toward people and animals, often uncomfortably so! As a young child, I was able to hear energy and sense auras. This grew over time to being able to vibrantly sense another's life in a different time or space. An experience in my early 20's awakened me to the connection between all of us; nature, humanity, and the heavens.

These prompted me to explore formal energy practices. I became a reiki master and also honed my intuition with tarot and oracle card divination and automatic spirit writing, which I have been practicing over 20 years. I have included a master's certification in spiritual mentorship, ancestral healing, aka dua energy work (Level 3 Practitioner), Q-RIT, and QHHT (Level 2 Practitioner) to my portfolio of services. I co-host the [Mystical Mermaid Lounge](#) podcast and host the [Past Lives Cafe](#) podcast as Chione Star.

I created Quantum Journey after retiring from corporate America in 2023. I moved to Rehoboth Beach, DE with my family, three cats, one dog and a cockatiel. I hold a M.S. in Health Education from St. Joseph's University and a B.A. in Psychology from Temple University.

With honor, I strive to respectfully serve humankind on our collective quest to positively evolve in body, mind, and consciousness.
